## WHEN BETTING MEETS THE WORLD OF CRYPTOCURRENCIES...

RoBET is the perfect connection of two emerging markets: gambling and cryptocurrencies melting together in a single product. With the cryptocurrency market having passed the \$500 billion market cap and the online gambling yield expected to reach US \$ 60 bln within 2020, this is the perfect moment to launch a platform, which enables the creation of a gambling environment based on the use of cryptocurrencies, offering at the same time the possibility to exchange cryptocurrencies throughout bets. RoBET is your chance to take off since, according to the latest statistics, the win percentage amounted to 86% in 2017.

## OUR COMPETITIVE ADVANTAGE

RoBET, the worldwide first sports betting crypto exchange, enables users to live a truly original gaming experience in the context of cryptocurrencies, enhancing at the same time the user's specific competences in the field of sports betting. Security, transparency and ease of use are granted thanks to the use of blockchain. RoBET platform is a Ethereum based smart contract ledger and at the same time a cryptocurrency wallet which enables users both to manage online bettings and to exchange cryptocurrencies, most of them, throughout a bet using our digital wallet. Moreover, users can become a bookie themselves.
